Quilted Cat Wall Hanging

Materials:

Wool felt – black, white, green, pink

Black fabric for back and borders - approx. ½ yard

Fabric for background and binding - approx. ½ yard

Quilt batting

DMC thread

Directions:

1. Cut your felt pieces using the patterns
2. Cut a 12" X 12" square from your background fabric (orange polka dot.)
3. Sew the cat face on the center of the 12" X 12" square of background fabric using a blanket stitch.
4. Next sew the eyes in place using a running stitch. Then sew the nose and mouth in place using a running stitch.
5. Once the cat has been stitched onto the square, cut 4 ½ " wide borders from the black fabric. Using the square that you previously sewed the cat on, sew the borders around the background one at a time. Open and press each border before add the next one. Continue sewing and pressing until your square has a black border all the way around it.
6. Cut a piece of batting and black fabric the same size as your finished front piece. Sandwich all three pieces together placing the cat piece on top, the batting in the middle and the black fabric on the bottom. Pin the layers in place then quilt your wall hanging.
7. After quilting your wall hanging, straighten and trim the edges using a rotary cutter and a ruler.
8. Next cut the strips for your binding. Sew the strips together and press your binding. There are many tutorials for making binding if you need help or you can use a pre-made binding.
9. Attach your binding. Then using black fabric sew three tabs on the back of the wall hanging, placing one on each side and one in the center.
10. Hang your wall hanging, then stand back to admire it.
